

BUSINESS SOLUTIONS

Elearns

Share your knowledge

Based on Microsoft Windows SharePoint Services technology, ELeArns enables distribution and work together on assignments with students, allowing assignments tracking and grades reporting. Interactive assignments are supported through support for SCORM 2004 and SCORM 1.2, the most widely accepted e-learning content standard. Basic assignment and tracking functions are available for any electronic document.

Improve your teaching environment

ELeArns is a very customizable environment and uses SharePoint integrated authentication and roles, meaning you may organize your students groups, blocking or allowing content to each group. Other functionalities available are integration with Flash content, discussion forums and Tasks management.

Ground-up integration with SharePoint

ELeArns allows fast configuration and scaling, as it is built on the SharePoint built-in processes.

Easily you may create several groups of students, each one with different privileges, to different E-Learning modules. True SharePoint integrated authentication and roles are used.

Besides the E-Learning content availability, students may benefit from all SharePoint general features:

Discussion forum: sharing doubts and knowledge between students and teachers speeds up the learning process curve.

Tasks management: a task list is available for students to manage and improve their study methodology. Teachers may also create task lists for their students to accomplish. All these tasks may also be synchronized with Outlook.

Alerts feature: Configure your E-Learning platform to receive by email alerts about any changes made to important lists.

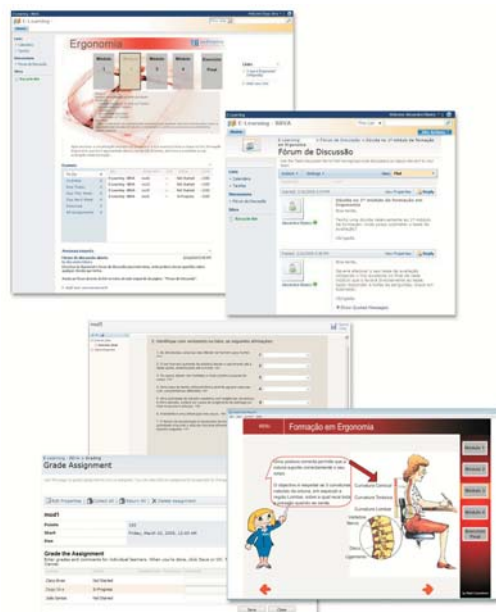

An e-learning environment, providing easy deliver for both interactive and basic documents by educators to their students.

Empower your students

With ELeArns you may provide dynamic and practical teaching content, such as Multiple Choice questions, True/False, Fill-in-the-blank, Short answer, Matching, Hot Spot, Sequence and Rating Scale.

Each E-Learning site may provide several teaching modules and for each one you may associate different e-learning evaluation content. Different grading values may be applied to each evaluation module. Students may easily access their To-do work, the already submitted evaluations and incomplete tasks.

Powerful and dynamic content may be designed by using several tools, such as Flash and video viewers, embedded in the E-Learning site platform.

Features

Dynamic ELearning Content Deliver powerful content to your students, with dynamic styles and embedded videos, turning your E-Learning modules attractive and fun to learn. Using Flash software and developing evaluation content on SCORM 1.2 / 2004 (the most widely used E-Learning patterns and specifications collection) you may achieve high-quality results.

Easily customizable Adapt your E-Learning platform to your needs, regarding website design, E-Learning content, security roles and students groups. Provide new documentation lists and adapt evaluation grading and submitting period dates, regarding your evaluation SCORM content.

Communication Teachers Vs. Students Communication between the platform intervenients may be achieved by several methods: there is a discussion forum to allow students to interact between them and with teachers. Also an announcements' list is available on first page for teachers to broadcast useful information to their students. Task lists are accessible for all students to manage their study and plan their E-Learning modules execution.

Outlook Synchronization Subscribe Outlook synchronization feature with the calendar and task lists and receive alerts by email regarding main importance lists.

Reporting Reporting may be developed regarding final grading from your students. Comments may be inserted by the teacher to each student's results.

Works with all sharepoint versions This application works with either Windows Sharepoint Services or Microsoft Office Sharepoint Server

Several views for instructors and learners Easily get different views of assignments: due today, this week or next week, overdue, to do, returned, etc. filtered as you are an instructor or a learner.
